🖵 SQL Adding in a DB from a bak file

in list Breakouts

☰ Edit the description…

☑ How to Import NorthWind

Delete…

0% |

- [ ] 1) Download the .bak file here: https://northwinddatabase.codeplex.com/
- [ ] 2) In SSMS right click on your Databases folder
- [ ] 3) Select Restore Database...
- [ ] 4) Select back-up from Device
- [ ] 5) Next to device click on the box with three periods [...]
- [ ] 6) In the new pop up click add
- [ ] 7) Navigate to where your .bak file is stored
- [ ] 8) Hit okay on each window. Does it work? If yes you're done! If no, debug and try again. Does your database already exist?
